

Membership Committee *submitted by Jeff Crandle (with additional information from Ellie Williams)*

The Membership committee strives to increase interest and membership at C3. This includes improving our presence on Sunday mornings, through being visible and welcoming. Changes have been made for larger name tags and we are discussing how we can use signage more effectively.

- We have agreed to a mandate to guide our activities, and to a list of responsibilities for those serving at the Welcome Table.
- We will continue to record membership data and be able to communicate this to the board when asked. This data collection hopefully will be turned over to the front office employee when it is feasible.
- Special thanks to committee members Richard Kamischke, Ellie Williams, Sarah Jacobs, Kathy Smith and Shannon McMaster.
- We remain positive about and for the future of C3

We recently researched the feasibility of promoting C3 through use of billboards and have presented this to the Board (thanks for Richard Kamischke). Upcoming efforts will be to coordinate this project with others to maximize the impact of this advertising.

Additional information from Ellie Williams—

C3 has just under 200 Members and 150 Friends on record, although we have not seen many of these folks at Sunday Gathering since the COVID-19 pandemic. Similar to other churches and spiritual communities, our Sunday Gathering attendance is about 60% of participation prior to the pandemic. Six of our dear members have died in 2022.
